Smart Women and Small Business Ginny Wilmerding

2007-06-30 Are you one of the many women out there who needs a brand-new model for your business career? Are you looking for entrepreneurial alternatives to the world of big business, but aren't sure where to start? A transition into small business is a natural progression for countless women who have invested the first phase of their careers in large companies. Many mid-career women dream of starting their own businesses, but until now there hasn't been a book that gives them the sense of multiple choice that helps them find the right entrepreneurial fit—options that go beyond starting a venture to include buying an independent business or a franchise, joining or consulting for small businesses, or working with partners. There's a confusing array of how-to books out there with general advice about starting a business, conducting a job search, or balancing work and family. But what entrepreneurial women really need are the strategic tools for choosing and growing a business that will not only make them money, but make them happy as well. Women need direct, gender-specific advice about succeeding financially in their businesses; they also crave the feeling that their work matters, and they want flexibility and control over their professional lives in order to achieve a healthy work-life balance. This book offers them the womenfriendly business advice they need and numerous true-life role models to identify with and emulate. Author Ginny Wilmerding opens women's eyes to the advantages of buying, joining, or consulting for existing small businesses, fully explaining the alternatives to starting from scratch. If you lack an original business idea, this book will give you the confidence you need to get excited about pursuing a business idea other than your own. But if you do want to start a company from the ground up, there's plenty of food for thought for you here, too. Wilmerding not only shares her own stories and outside experts' advice but also includes insightful vignettes from women who have found their niches and are succeeding financially. If you're wondering how to finance your small business, Wilmerding steers you toward success in obtaining SBA loans and other financing. Finally, if you're considering partnering with others to share the risk and the fun, she prepares you for partnership success, and explains the importance of good advisers and mentors. The goal of this book is to get you started on the path to a successful career in the small business world, a world that needs experienced, smart, versatile women like you to join its ranks. **Smart Women and Small Business** is the ultimate professional guide for mid-career, business-minded women who want to achieve the same independence and success as their entrepreneurial male peers—but in their own way.

Caring in Times of Precarity Chow Yiu Fai 2018-12-14 Caring in Times of Precarity draws together two key cultural observations: the increase in those living a single life, and the growing attraction of creative careers. Straddling this historical juncture, the book focuses on one particular group of 'precariat': single women in Shanghai in various forms of creative (self-)employment. While negotiating their share of the uncanny creative work ethos, these women also find themselves interpellated as shengnü ('left-over women') in a society configured by a mix of Confucian values, heterosexual ideals, and global images of womanhood. Following these women's professional, social and intimate lives, the book refuses to see their singlehood and creative labour as problematic, and them as victims. It departs from dominant thinking on precarity, which foregrounds and critiques the contemporary need to be flexible, mobile, and spontaneous to the extent of (self-)exploitation, accepting insecurity. The book seeks to understand– empirically and specifically–women's everyday struggles and pleasures. It highlights the up-close, everyday embodied, affective, and subjective experience in a particular Chinese city, with broader, global resonances well beyond China. Exploring the limits of the politics of precarity, the book proposes an ethics of care.

The Naked Truth Margaret A. Heffernan 2004-08-13 In this provocative book, Margaret Heffernan, former CEO and Fast Company contributor, fuses her own experience with that of hundreds of women to identify the biggest challenges and the best solutions that women face today. From VPs of Fortune 100 companies to entrepreneurs to women just starting their careers, she traces the patterns and themes underlying women's power, choices, love, sex, money, and many other vital topics for working women. Without sugar-coating the facts, preaching, or oversimplifying, she offers solutions and shares the truth about the working world: women's choices are limited, you can't have it all, women do work differently from men and, yes, it is possible to find success amidst all of this and feel good about it.

"Finally! A book that exposes the masculine myths about what it takes to be effective in business and helps women reclaim the relational intelligence we have been taught to ignore. A must-read for all women who want to increase their power and influence in the workplace—especially those who are thinking of leaving because they are tired of the corporate gamesmanship that requires splitting themselves into a 'work me' and a 'home me.'" —Joyce K. Yes, You Can Do This! How Women Start Up, Scale Up, and Build The Life They Want Claudia Reuter 2020-02-14 How women can "lean in" to entrepreneurship to create the life they want! Claudia Reuter left a promising corporate career to raise her two young children but realized, when re-entering the workforce, that the gap in her resume looked like a gap in ambition—not a purposeful plan. Instead of leaning into a corporate career and fighting the structures and systems designed by and for men decades ago, or leaning out and giving up income, Claudia took a different path. That decision ultimately led to success in the corporate world and at home. In *Yes, You Can Do This!* Claudia shares her own reasons for starting a business, and makes a call to action for women to consider entrepreneurship so that they can create businesses with the rules they want and change the playing field for others, making a significant impact in the world. More than a "How-to book" on building a business, Claudia provides clear examples and practical resources to help others create the life they want through entrepreneurship. In *Yes, You Can Do This!* you'll learn: How to develop and share your vision How to deal with stereotypes and unconscious bias How to leverage perceived weaknesses and turn them into strengths How to balance life at high speeds and avoid burnout How to cultivate the confidence to move from idea to creating a company with the culture and rules you want In *Yes, You Can Do This!* women are provided with an electrifying third career option: it's not just "lean in" or "lean out," but startup and change the

playing field for others in the process. Praise for Yes, You Can Do This! "Combining compelling storytelling with practical, tactical advice, Reuter has created a manifesto for the next generation of female founders. Rooted in the research around gender and work, this is a must read for women looking to launch the next new thing." - Jennifer McFadden, Associate Director of Entrepreneurial Programs, Yale School of Management "A must-read for any woman considering taking the leap into entrepreneurship, You Can Do This brings together today's best thinking about women in the workplace with practical advice for creating your dream career and life - by starting a company. Whether you are just curious or ready to take the leap, this book is a great read and a valuable resource." -Anna Barber, Managing Director, Techstars "Claudia helps not just the female entrepreneur, but all entrepreneurs, find their footing in what can be an overwhelming whirlwind of starting a business. This book is not only inspiring and uplifting, but positively necessary for any woman looking to find success in the startup space! -Shira Atkins, Co-founder & CMO Wonder Media Network "Stories of entrepreneurial success exist in abundance for men who receive 97.8% of venture funding and hold 95% of CEO roles. What is most inspiring about Claudia's book, making me want to shout from the rooftop, is that it is told from the perspective of an everyday woman who pushed hard through barriers, doubts, and setbacks that any entrepreneur would face. On top of all that, she overcame obstacles that are uniquely ours as women today. Claudia is now a standout among women, but with her book in hand, women who want to build a business to scale have a blueprint and path to do so. Here's to making dreams come true!" - Coco Brown, CEO and Founder, The Athena Alliance. "As I read through the book, there were multiple points where I thought, 'Every man in any startup or fast-growing business should read this.' As a man in technology, I took away a number of new ideas, along with examples that were explained in a way that I wouldn't have been able to do prior to reading Claudia's book" -Brad Feld, Managing Director, at Foundry Group, author of Venture Deals and Do More

This collection offers the reader intelligent engagement with the range of research and ways of knowing about women and entrepreneurship. Established scholars will find much of interest, and we would also confidently recommend the Handbook to interested newcomers. Robyn Walker and Kate Lewis, *Women in Management Review* Sandra L. Fielden and Marilyn J. Davidson have put a great deal of work into producing this compilation of scientific studies on women and small business entrepreneurship. In this book, the editors have managed to put together an excellent compilation of studies that look at topics that have aroused the highest interest in this field in recent years. . . Women in Charge (Routledge Revivals) Robert Goffee

2015-06-11 Why do women start their own businesses? Is it solely because they are searching for financial success, or for other reasons? On the basis of detailed interviews with a number of women who have started their own businesses, this book, first published in 1985, reveals the significance of factors that are directly related to women's experiences at home, at work, and in the wider society. The author's analysis shows how business start-up enables many women, but not all, to achieve forms of economic and social independence that they would not otherwise enjoy. Further, they illustrate ways in which business proprietorship has a wide variety of effects upon individuals, and upon their personal relationships and life styles. They refute the notion of a single entrepreneurial experience and argue that the causes and consequences of business start-up are highly conditioned by the extent to which women are committed to traditionally prescribed roles and to profitability. The findings of this book will have important implications for the formulation of small business policies. It will also be of particular value to those interested in women's studies and small business management.
