

Islam And Democracy In Indonesia Tolerance Without Liberalism Cambridge Studies In Social Theory Religion And Politics

Right here, we have countless ebook **Islam And Democracy In Indonesia Tolerance Without Liberalism Cambridge Studies In Social Theory Religion And Politics** and collections to check out. We additionally come up with the money for variant types and in addition to type of the books to browse. The agreeable book, fiction, history, novel, scientific research, as with ease as various new sorts of books are readily open here.

As this Islam And Democracy In Indonesia Tolerance Without Liberalism Cambridge Studies In Social Theory Religion And Politics, it ends occurring bodily one of the favored ebook Islam And Democracy In Indonesia Tolerance Without Liberalism Cambridge Studies In Social Theory Religion And Politics collections that we have. This is why you remain in the best website to look the amazing book to have.

Indonesia Jamie S. Davidson 2018-08-16 This Element argues that after twenty years of democratization, Indonesia has performed admirably. This is especially so when the country's accomplishments are placed in comparative perspective. However, as we analytically focus more closely to inspect Indonesia's political regime, political economy, and how identity-based mobilizations have emerged, it is clear that Indonesia still has many challenges to overcome, some so pressing that they could potentially erode or reverse many of the democratic gains the country has achieved since its former authoritarian ruler, Soeharto, was forced to resign in 1998.

Post-Islamism Asef Bayat 2013-05-28 At least since the Islamic revolution of 1979 in Iran, political Islam or Islamism has been the focus of attention among scholars, policymakers, and the general public. Much has been said about Islamism as a political and moral/ethical trend, but scant attention is paid to its ongoing development. There is now a growing acknowledgment within the scholarly and policy communities that Islamism is in the throes of transformation, but little is known about the nature and direction of these changes. The essays of Post-Islamism bring together young and established scholars and activists from different parts of the Muslim World and the West to discuss their research on the changing discourses and practices of Islamist movements and Islamic states largely in the Muslim majority countries. The changes in these movements can be termed 'post-Islamism,' defined both as a condition and a project characterized by the fusion of religiosity and rights, faith and freedom, Islam and liberty. Post-Islamism emphasizes rights rather than merely obligation, plurality instead of singular authoritative voice, historicity rather than fixed scriptures, and the future instead of the past.

Remaking Muslim Politics Robert W. Hefner 2009-01-10 There is a struggle for the hearts and minds of Muslims unfolding across the Islamic world. The conflict pits Muslims who support pluralism and democracy against others who insist such institutions are antithetical to Islam. With some 1.3 billion people worldwide professing Islam, the outcome of this contest is sure to be one of the defining political events of the twenty-first century. Bringing together twelve engaging essays by leading specialists focusing on individual countries, this pioneering book examines the social origins of civil-democratic Islam, its long-term prospects, its implications for the West, and its lessons for our understanding of religion and politics in modern times. Although depicted by its opponents as the product of political ideas "made in the West" civil-democratic Islam represents an indigenous politics that seeks to build a distinctive Islamic modernity. In countries like Turkey, Iran, Malaysia, and Indonesia, it has become a major political force. Elsewhere its influence is apparent in efforts to devise Islamic grounds for women's rights, religious tolerance, and democratic citizenship. Everywhere it has generated fierce resistance from religious conservatives. Examining this high-stakes clash, *Remaking Muslim Politics* breaks new ground in the comparative study of Islam and democracy. The contributors are Bahman Baktiari, Thomas Barfield, John R. Bowen, Dale F. Eickelman, Robert W. Hefner, Peter Mandaville, Augustus Richard Norton, Gwenn Okruhlik, Michael G. Peletz, Diane Singerman, Jenny B. White, and Muhammad Qasim Zaman.

Islamic Populism in Indonesia and the Middle East

Islam and Democracy John L. Esposito 1996-05-09 Are Islam and democracy on a collision course? Do Islamic movements seek to "hijack democracy?" How have governments in the Muslim world responded to the many challenges of Islam and democracy today? A global religious resurgence and calls for greater political participation have been major forces in the post-Cold War period. Across the Muslim world, governments and Islamic movements grapple with issues of democratization and civil society. *Islam and Democracy* explores the Islamic sources (beliefs and institutions) relevant to the current debate over greater political participation and democratization. Esposito and Voll use six case studies--Algeria, Egypt, Iran, Malaysia, Pakistan, and Sudan--to look at the diversity of Muslim experiences and experiments. At one end of the spectrum, Iran and Sudan represent two cases of militant, revolutionary Islam establishing political systems. In Pakistan and Malaysia, however, the new movements have been recognized and made part of the political process. Egypt and Algeria reveal the coexistence of both extremist and moderate Islamic activism and demonstrate the complex challenges confronting ruling elites. These case studies prove that despite commonalities, differing national contexts and identities give rise to a multiplicity of agendas and strategies. This broad spectrum of case studies, reflecting the multifaceted relationship of Islam and Democracy, provides important insight into the powerful forces of religious resurgence and democratization which will inevitably impact global politics in the twenty first century.

Religion and Regulation in Indonesia Ismatu Ropi 2017-01-05 This book analyses the relation between state and religion in Indonesia, considering both the philosophical underpinning of government intervention on religious life but also cases and regulations related to religious affairs in Indonesia. Examining state regulation of religious affairs, it focuses on understanding its origin, history and consequences on citizens' religious life in modern Indonesia, arguing that while Indonesian constitutions have preserved religious freedom, they have also tended to construct wide-ranging discretionary powers in the government to control religious life and oversee religious freedom. Over more than four decades, Indonesian governments have constructed a variety of policies on religion based on constitutional legacies interpreted in the light of the norms and values of the existing religious majority group. A cutting edge examination of the tension between religious order and harmony on one hand, and protecting religious freedom for all on the other, this book offers a cutting edge study of how the history of regulating religion has been about the constant negotiation for the boundaries of authority between the state and the religious majority group.

Islam and Democracy in Indonesia Jeremy Menchik 2016-01-11 Indonesia's Islamic organizations sustain the country's thriving civil society, democracy, and reputation for tolerance amid diversity. Yet scholars poorly understand how these organizations envision the accommodation of religious difference. What does tolerance mean to the world's largest Islamic organizations? What are the implications for democracy in Indonesia and the broader Muslim world? Jeremy Menchik argues that answering these questions requires decoupling tolerance from liberalism and investigating the

historical and political conditions that engender democratic values. Drawing on archival documents, ethnographic observation, comparative political theory, and an original survey, *Islam and Democracy in Indonesia* demonstrates that Indonesia's Muslim leaders favor a democracy in which individual rights and group-differentiated rights converge within a system of legal pluralism, a vision at odds with American-style secular government but common in Africa, Asia and Eastern Europe.

Civil Islam Robert W. Hefner 2011-05-21 Civil Islam tells the story of Islam and democratization in Indonesia, the world's largest Muslim nation. Challenging stereotypes of Islam as antagonistic to democracy, this study of courage and reformation in the face of state terror suggests possibilities for democracy in the Muslim world and beyond. Democratic in the early 1950s and with rich precedents for tolerance and civility, Indonesia succumbed to violence. In 1965, Muslim parties were drawn into the slaughter of half a million communists. In the aftermath of this bloodshed, a "New Order" regime came to power, suppressing democratic forces and instituting dictatorial controls that held for decades. Yet from this maelstrom of violence, repressed by the state and denounced by conservative Muslims, an Islamic democracy movement emerged, strengthened, and played a central role in the 1998 overthrow of the Soeharto regime. In 1999, Muslim leader Abdurrahman Wahid was elected President of a reformist, civilian government. In explaining how this achievement was possible, Robert Hefner emphasizes the importance of civil institutions and public civility, but argues that neither democracy nor civil society is possible without a civilized state. Against portrayals of Islam as inherently antipluralist and undemocratic, he shows that Indonesia's Islamic reform movement repudiated the goal of an Islamic state, mobilized religiously ecumenical support, promoted women's rights, and championed democratic ideals. This broadly interdisciplinary and timely work heightens our awareness of democracy's necessary pluralism, and places Indonesia at the center of our efforts to understand what makes democracy work.

Democratic Dynasties Kanchan Chandra 2016-04-28 Dynastic politics, usually presumed to be the antithesis of democracy, is a routine aspect of politics in many modern democracies. This book introduces a new theoretical perspective on dynasticism in democracies, using original data on twenty-first-century Indian parliaments. It argues that the roots of dynastic politics lie at least in part in modern democratic institutions - states and parties - which give political families a leg-up in the electoral process. It also proposes a rethinking of the view that dynastic politics is a violation of democracy, showing that it can also reinforce some aspects of democracy while violating others. Finally, this book suggests that both reinforcement and violation are the products, not of some property intrinsic to political dynasties, but of the institutional environment from which those dynasties emerge.

Politics in Indonesia Douglas E. Ramage 2002-09-11 *Politics in Indonesia* describes the attitudes, aspirations and frustrations of the key players in Indonesian politics as they struggle to shape the future. The book focuses on the role of political Islam; Douglas E. Ramage shows that the state has been remarkably successful in maintaining secular political institutions in a predominantly Muslim society. He analyses the way in which political questions are framed with reference to the national ideology, the Pancasila.

The Oxford Handbook of Islam and Politics Emad El-Din Shahin 2016-10-01 Over the past three decades, scholars, government analysts and terrorism experts have examined the relationship between Islam and politics. But specialists have tended to limit their analysis to a specific country or focus. Few works have provided a geographically comprehensive, in-depth analysis. Since 9/11, another wave of literature on political Islam and global terrorism has appeared, much of it superficial and sensationalist. This situation underscores the need for a comprehensive, analytical, and in-depth examination of Islam and politics in the post-9/11 era and in an increasingly globalizing world. The *Oxford Handbook of Islam and Politics*, with contributions from prominent scholars and specialists, provides a comprehensive analysis of what we know and where we are in the study of political Islam. It enables scholars, students, and policymakers to understand the interaction of Islam and politics and the multiple and diverse roles of Islamic movements, as well as issues of authoritarianism and democratization, religious extremism and terrorism regionally and globally.

Red at Heart Elizabeth McGuire 2017 Prologue at Vova's -- Map of contemporary Russia and China -- Introduction: Serious romance -- Part I. First encounters, circa 1921 -- Emi's adventures : Changsha-Paris-Moscow -- Qu's quest : Tolstoy and the Trans-Siberian -- New youth, new Russians -- Part II. School crushes, 1920s -- School dramas -- Shanghai University and the Comintern's curriculum -- A crush on Russia : Qu's female protégés -- Chiang Kaishek's son in red wonderland -- Heartbreak : the demise of Qu -- Part III. Love affairs, 1930s-1940s -- Kolia the Chinese -- Liza/Li : the agitator and the aristocrat -- Emi/Eva : the love affairs of a Sino-Soviet poet -- The legend of He Zizhen, Mao's wife in Yanan and Moscow -- Sino-Soviet love children -- Part IV. Families, 1950s -- Male metaphors : Mao, Stalin and brotherhood -- Wang, Dasha, and Nastya : Russian romance redux -- Legitimate offspring : Chinese students in 1950s Moscow -- Female families : Liza's home, Eva's adventures -- Part V. Last kisses, 1960s and beyond -- The split within : Sino-Soviet families under pressure -- Defiant romantics : ironies of cultural revolution -- Nostalgia : Wang's search -- Epilogue at Yura's

Islam, Secularism, and Liberal Democracy Nader Hashemi 2009-04-08 Islam's relationship to liberal-democratic politics has emerged as one of the most pressing and contentious issues in international affairs. In *Islam, Secularism, and Liberal Democracy*, Nader Hashemi challenges the widely held belief among social scientists that religious politics and liberal-democratic development are structurally incompatible. This book argues for a rethinking of democratic theory so that it incorporates the variable of religion in the development of liberal democracy. In the process, it proves that an indigenous theory of Muslim secularism is not only possible, but is a necessary requirement for the advancement of liberal democracy in Muslim societies.

Islam Beyond Conflict Azyumardi Azra 2008-01-01 This volume explores the extent to which moderate Indonesian Islam is able to assimilate leading concepts from Western political theory. The essays explore how concepts from Western

political theory are compatible with a liberal interpretation of Islamic universals and how such universals can form the basis for a contemporary approach to the protection of human rights and the articulation of a modern Islamic civil society.

"Public Religion" and the Pancasila-based State of Indonesia Benyamin Fleming Intan 2006 «Public Religion» and the Pancasila-Based State of Indonesia: An Ethical and Sociological Analysis analyzes the public role of religion in Indonesian society from the pre-independence period to the end of Suharto's New Order government. It offers constructive suggestions regarding how Indonesian religion can play a significant role within the framework of Pancasila, Indonesia's national ideology. Based on a Christian-Muslim dialogue, it is only within the realm of civil society that Indonesian religion will be able to promote the ideas of democracy, tolerance, and human rights in Indonesian public affairs. In short, far from being anti-pluralist, Indonesian religion evolves as a liberating force in the life of society, nation, and state.

Islam, Gender, and Democracy in Comparative Perspective José Casanova 2017-04-27 The relationship between secularism, democracy, religion, and gender equality has been a complex one across Western democracies and still remains contested. When we turn to Muslim countries, the situation is even more multifaceted. In the views of many western commentators, the question of Women Rights is the litmus test for Muslim societies in the age of democracy and liberalism. Especially since the Arab Awakening, the issue is usually framed as the opposition between liberal advocates of secular democracy and religious opponents of women's full equality. *Islam, Gender, and Democracy in Comparative Perspective* critically re-engages this too simple binary opposition by reframing the debate around Islam and women's rights within a broader comparative literature. Bringing together leading scholars from a range of disciplines, it examines the complex and contingent historical relationships between religion, secularism, democracy, law, and gender equality. Part One addresses the nexus of religion, law, gender, and democracy through different disciplinary perspectives (sociology, anthropology, political science, law). Part Two localizes the implementation of this nexus between law, gender, and democracy and provides contextualized responses to questions raised in Part One. The contributors explore the situation of Muslim women's rights in minority conditions to shed light on the gender politics in the modernization of the nation and to ponder on the role of Islam in gender inequality across different Muslim countries.

Piety and Public Opinion Thomas B. Pepinsky 2018-01-02 Across the Muslim world, religion plays an increasingly prominent role in both the private and public lives of over a billion people. Observers of these changes struggle to understand the consequences of an Islamic resurgence in a democratizing world. Will democratic political participation by an increasingly religious population lead to victories by Islamists at the ballot box? Will more conspicuously pious Muslims participate in politics and markets in a fundamentally different way than they had previously? Will a renewed attention to Islam lead Muslim democracies to reevaluate their place in the global community of states, turning away from alignments with the West or the Global South and towards an Islamic civilizational identity? The answers to all of these questions depend, at least in part, on what ordinary Muslims think and do. In order to provide these answers, the authors of this book look to Indonesia--the world's largest Muslim country and one of the world's only consolidated Muslim democracies. They draw on original public opinion data to explore how religiosity and religious belief translate into political and economic behavior at the individual level. Across various issue areas--support for democracy or Islamic law, partisan politics, Islamic finance, views about foreign engagement--they find no evidence that the religious orientations of Indonesian Muslims have any systematic relationships with their political preferences or economic behavior. The broad conclusion is that scholars of Islam, in Indonesia and elsewhere, must understand religious life and individual piety as part of a larger and more complex set of social transformations. These transformations include modernization, economic development, and globalization, each of which has occurred in parallel with Islamic revivalism throughout the world. Against the common assumption that piety would naturally inhibit any tendencies towards modernity, democracy, or cosmopolitanism, *Piety and Public Opinion* reveals the complex and subtle links between religion and political beliefs in a critically important Muslim democracy.

Are Muslims Distinctive? M. Steven Fish 2011-02-09 *Are Muslims Distinctive?* represents the first major scientific effort to assess how Muslims and non-Muslims differ--and do not differ--in the contemporary world. Using rigorous methods and data drawn from around the globe, M. Steven Fish reveals that in some areas Muslims and non-Muslims differ less than is commonly imagined. Muslims are not inclined to favor the fusion of religious and political authority or especially prone to mass political violence. Yet there are differences: Gender inequality is more severe among Muslims, Muslims are unusually averse to homosexuality and other controversial behaviors, and democracy is rare in the Muslim world. Other areas of divergence bear the marks of a Muslim advantage: Homicide rates and class-based inequities are less severe among Muslims than non-Muslims. Fish's findings have vital implications for human welfare, interfaith understanding, and international relations.

Asia's Reckoning Richard McGregor 2017-09-05 'Stunningly good' Michael Burleigh, Evening Standard, Books of the Year 2017 The dramatic story of the relationship between the world's three largest economies, one that is shaping the future of us all, by one of the foremost experts on east Asia For more than half a century, American power in the Pacific has successfully kept the peace. But it has also cemented the tensions in the toxic rivalry between China and Japan, consumed with endless history wars and entrenched political dynasties. Now, the combination of these forces with Donald Trump's unpredictable impulses and disdain for America's old alliances threatens to upend the region, and accelerate the unravelling of the postwar order. If the United States helped lay the postwar foundations for modern Asia, now the anchor of the global economy, Asia's Reckoning will reveal how that structure is now crumbling. With unrivalled access to archives in the US and Asia, as well as many of the major players in all three countries, Richard McGregor has written a tale which blends the tectonic shifts in diplomacy with the domestic political trends and personalities driving them. It is a story not only of an overstretched America, but also of the rise and fall and rise of the great powers of Asia. The confrontational course on which China and Japan have increasingly set themselves is no simple spat between neighbors. And the fallout would be a political and economic tsunami, affecting manufacturing centers, trade

routes, and political capitals on every continent.

Secularism, Religion, and Democracy in Southeast Asia Vidhu Verma 2019-08-24 Until the 1990s, secularism was understood largely as exclusion of religion from the public domain. However, in the last two decades, the world has witnessed the return of religion as a medium and subject of national, regional, and global politics. With such a shift, the previously unquestioned Western values of modernity and secularism find themselves at loggerheads with the increasing assertion of religious identity, which results in difference-based conflicts. This antagonism also gives rise to a vibrant, religiously pluralistic civil society and speaks of a post-secular turn in modern Southeast Asian democracies. *Secularism, Religion, and Democracy in Southeast Asia* tries to understand the rise of religion in modern democracies and how everyday economic, social, and political conditions aid this post-secular phenomenon in Southeast Asia. Setting itself apart from most studies of religion in Southeast Asia through its regional focus, this volume explores the ideas, practices, state responses, and anxieties related to the religious-secular divide in this geopolitical region. **Liberalism Disavowed** Chua Beng Huat 2017-06-23 In *Liberalism Disavowed*, Chua Beng Huat examines the rejection of Western-style liberalism in Singapore and the way the People's Action Party has forged an independent non-Western ideology. This book explains the evolution of this communitarian ideology, with focus on three areas: public housing, multiracialism and state capitalism, each of which poses different challenges to liberal approaches. With the passing of the first Prime Minister, Lee Kuan Yew and the end of the Cold War, the party is facing greater challenges from an educated populace that demands greater voice. This has led to liberalization of the cultural sphere, greater responsiveness and shifts in political rhetoric, but all without disrupting the continuing hegemony of the PAP in government.

Tolerance, Democracy, and Sufis in Senegal Mamadou Diouf 2013-01-08 This collection critically examines "tolerance," "secularism," and respect for religious "diversity" within a social and political system dominated by Sufi brotherhoods. Through a detailed analysis of Senegal's political economy, essays trace the genealogy and dynamic exchange among these concepts while investigating public spaces and political processes and their reciprocal engagement with the state, Sunni reformist and radical groups, and non-religious organizations. The anthology provides a rich and nuanced historical ethnography of the formation of Senegalese democracy, illuminating the complex trajectory of the Senegalese state and reflecting on similar postcolonial societies. Offering rare perspectives on the country's "successes" since liberation, the volume identifies the role of religion, gender, culture, ethnicity, globalization, politics, and migration in the reconfiguration of the state and society, and it makes an important contribution to democratization theory, Islamic studies, and African studies.

Democracy, Islam, & Secularism in Turkey Ahmet Kuru 2012-02-14 While Turkey has grown as a world power, promoting the image of a progressive and stable nation, several policy choices have strained its relationship with the East and the West. Providing social, historical, and religious context for Turkey's singular behavior, the essays in *Democracy, Islam, and Secularism in Turkey* examine issues relevant to Turkish debates and global concerns, from the state's position on religion and diversity to its involvement in the European Union. Written by experts in a range of disciplines, the chapters explore the Ottoman toleration of diversity during its classical period; the erosion of ethno-religious diversity in modern, pre-democratic times; Kemalism and its role in modernization and nation building; the changing political strategies of the military; and the effect of possible EU membership on domestic reforms. They also conduct a cross-Continental comparison of "multiple secularisms" as well as political parties, considering the Justice and Development Party in Turkey in relation to Christian Democratic parties in Europe. The contributors tackle central research questions, such as what is the legacy of the Ottoman Empire's ethno-religious plurality and how can Turkey's assertive secularism be softened to allow greater space for religious actors. They address the military's "guardian" role in Turkey's secularism, the implications of recent constitutional amendments for democratization, and the consequences and benefits of Islamic activism's presence within a democratic system. No other collection confronts Turkey's contemporary evolution so vividly and thoroughly or offers such expert analysis of its crucial social and political systems.

Riots, Pogroms, Jihad John T. Sidel 2018-07-05 In October 2002 a bomb blast in a Balinese nightclub killed more than two hundred people, many of them young Australian tourists. This event and subsequent attacks on foreign targets in Bali and Jakarta in 2003, 2004, and 2005 brought Indonesia into the global media spotlight as a site of Islamist terrorist violence. Yet the complexities of political and religious struggles in Indonesia, the most populous Muslim country in the world, remain little known and poorly understood in the West. In *Riots, Pogroms, Jihad*, John T. Sidel situates these terrorist bombings and other "jihadist" activities in Indonesia against the backdrop of earlier episodes of religious violence in the country, including religious riots in provincial towns and cities in 1995-1997, the May 1998 riots in Jakarta, and interreligious pogroms in 1999-2001. Sidel's close account of these episodes of religious violence in Indonesia draws on a wide range of documentary, ethnographic, and journalistic materials. Sidel chronicles these episodes of violence and explains the overall pattern of change in religious violence over a ten-year period in terms of the broader discursive, political, and sociological contexts in which they unfolded. Successive shifts in the incidence of violence--its forms, locations, targets, perpetrators, mobilizational processes, and outcomes--correspond, Sidel suggests, to related shifts in the very structures of religious authority and identity in Indonesia during this period. He interprets the most recent "jihadist" violence as a reflection of the post-1998 decline of Islam as a banner for unifying and mobilizing Muslims in Indonesian politics and society. Sidel concludes this book by reflecting on the broader implications of the pattern observed in Indonesia both for understanding Islamic terrorism in particular and for analyzing religious violence in all its varieties.

Islam and Politics in Indonesia Remy Madinier 2015-08-31 The Masyumi Party, which was active in Indonesia from 1945 to 1960, constitutes the boldest attempt to date at reconciling Islam and democracy. Masyumi proposed a vision of society and government which was not bound by a literalist application of Islamic doctrine but rather inspired by the values of Islam. It set out moderate policies which were both favourable to the West and tolerant towards other religious communities in Indonesia. Although the party made significant strides towards the elaboration of a Muslim democracy, its achievements were nonetheless precarious: it was eventually outlawed in 1960 for having resisted Sukarno's slide towards authoritarianism, and the refusal of Suharto's regime to reinstate the party left its leaders disenchanting and marginalised. Many of those leaders subsequently turned to a form of Islam known as integralism, a radical doctrine echoing certain characteristics of 19th-century Catholic integralism, which contributed to the advent of Muslim neo-fundamentalism in Indonesia. This book examines the Masyumi Party from its roots in early 20th-century Muslim reformism to its contemporary legacy, and offers a perspective on political Islam which provides an alternative to the more widely-studied model of Middle-Eastern Islam. The party's experience teaches us much about the fine line separating a moderate form of Islam open to democracy and a certain degree of secularisation from the sort of religious

intransigence which can threaten the country's denominational coexistence.

Muslims Talking Politics Brandon Kendhammer 2016-06-22 Sharia implementation and democratic discourse in Northern Nigeria -- What we talk about when we talk about Islam and democracy -- Envisioning sharia, imagining the past -- Democracy, federalism, and the sharia question -- Sharia in a time of transition -- Framing sharia and democracy -- Muslims talking politics -- All sharia is local: islamic law and democracy in practice.

Islam and Democracy in Indonesia Jeremy Menchik 2017-03-23 Indonesia's Islamic organizations sustain the country's thriving civil society, democracy, and reputation for tolerance amid diversity. Yet scholars poorly understand how these organizations envision the accommodation of religious difference. What does tolerance mean to the world's largest Islamic organizations? What are the implications for democracy in Indonesia and the broader Muslim world? Jeremy Menchik argues that answering these questions requires decoupling tolerance from liberalism and investigating the historical and political conditions that engender democratic values. Drawing on archival documents, ethnographic observation, comparative political theory, and an original survey, *Islam and Democracy in Indonesia* demonstrates that Indonesia's Muslim leaders favor a democracy in which individual rights and group-differentiated rights converge within a system of legal pluralism, a vision at odds with American-style secular government but common in Africa, Asia and Eastern Europe.

Religious Pluralism in Indonesia Chiara Formichi 2021-12-15 In 1945, Sukarno declared that the new Indonesian republic would be grounded on monotheism, while also insisting that the new nation would protect diverse religious practice. The essays in *Religious Pluralism in Indonesia* explore how the state, civil society groups, and individual Indonesians have experienced the attempted integration of minority and majority religious practices and faiths across the archipelagic state over the more than half century since Pancasila. The chapters in *Religious Pluralism in Indonesia* offer analyses of contemporary phenomena and events; the changing legal and social status of certain minority groups; inter-faith relations; and the role of Islam in Indonesia's foreign policy. Amidst infringements of human rights, officially recognized minorities—Protestants, Catholics, Hindus, Buddhists and Confucians—have had occasional success advocating for their rights through the Pancasila framework. Others, from Ahmadi and Shi'i groups to atheists and followers of new religious groups, have been left without safeguards, demonstrating the weakness of Indonesia's institutionalized "pluralism." Contributors: Lorraine Aragon, Christopher Duncan, Kikue Hamayotsu, Robert Hefner, James Hoesterey, Sidney Jones, Mona Lohanda, Michele Picard, Evi Sutrisno, Silvia Vignato

Counting Islam Tarek Masoud 2014-04-28 Why does Islam seem to dominate Egyptian politics, especially when the country's endemic poverty and deep economic inequality would seem to render it promising terrain for a politics of radical redistribution rather than one of religious conservatism? This book argues that the answer lies not in the political unsophistication of voters, the subordination of economic interests to spiritual ones, or the ineptitude of secular and leftist politicians, but in organizational and social factors that shape the opportunities of parties in authoritarian and democratizing systems to reach potential voters. Tracing the performance of Islamists and their rivals in Egyptian elections over the course of almost forty years, this book not only explains why Islamists win elections, but illuminates the possibilities for the emergence in Egypt of the kind of political pluralism that is at the heart of what we expect from democracy.

Islam and Democracy in Indonesia Jeremy Menchik 2016

The Military and Democracy in Indonesia Angel Rabasa 2002-12-13 The military is one of the few institutions that cut across the divides of Indonesian society. As it continues to play a critical part in determining Indonesia's future, the military itself is undergoing profound change. The authors of this book examine the role of the military in politics and society since the fall of President Suharto in 1998. They present several strategic scenarios for Indonesia, which have important implications for U.S.-Indonesian relations, and propose goals for Indonesian military reform and elements of a U.S. engagement policy.

Reconciliation Benazir Bhutto 2009-10-13 "It is impossible to understand today's world without knowing Pakistan; and impossible to understand Pakistan without reading this book. A courageous woman—tragically killed—speaks to us of reconciliation. We owe it to her—and to ourselves—to listen, comprehend, and act." — Madeleine Albright "One of the most gripping and important books of our era." — Walter Isaacson Benazir Bhutto returned to Pakistan in October 2007, after eight years of exile, hopeful that she could be a catalyst for change. Upon a tumultuous reception, she survived a suicide-bomb attack that killed nearly two hundred of her compatriots. But she continued to forge ahead, with more courage and conviction than ever, since she knew that time was running out—for the future of her nation and for her life. In *Reconciliation*, Bhutto recounts in gripping detail her final months in Pakistan and offers a bold new agenda for how to stem the tide of Islamic radicalism and to rediscover the values of tolerance and justice that lie at the heart of her religion. She speaks out not just to the West but also to the Muslims across the globe. Bhutto presents an image of modern Islam that defies the negative caricatures often seen in the West. After reading this book, it will become even clearer what the world has lost by her assassination

The Politics of Shari'a Law Michael Buehler 2016-09 An original and timely exploration of the continuing Islamization of Indonesian politics despite the electoral decline of Islamist parties.

Law and Religion in Indonesia Melissa Crouch 2013-11-12 Understanding and managing inter-religious relations, particularly between Muslims and Christians, presents a challenge for states around the world. This book investigates legal disputes between religious communities in the world's largest majority-Muslim, democratic country, Indonesia. It considers how the interaction between state and religion has influenced relations between religious communities in the transition to democracy. The book presents original case studies based on empirical field research of court disputes in West Java, a majority-Muslim province with a history of radical Islam. These include criminal court cases, as well as cases of judicial review, relating to disputes concerning religious education, permits for religious buildings and the crime of blasphemy. The book argues that the democratic law reform process has been influenced by radical Islamists because of the politicization of religion under democracy and the persistence of fears of Christianization. It finds that disputes have been localized through the decentralization of power and exacerbated by the central government's ambivalent attitude towards radical Islamists who disregard the rule of law. Examining the challenge facing governments to accommodate minorities and manage religious pluralism, the book furthers understanding of state-religion relations in the Muslim world. This accessible and engaging book is of interest to students and scholars of law and society in Southeast Asia, as well as Islam and the state, and the legal regulation of religious diversity.

Islamic Exceptionalism Shadi Hamid 2016-06-07 In *Islamic Exceptionalism*, Brookings Institution scholar and acclaimed author Shadi Hamid offers a novel and provocative argument on how Islam is, in fact, "exceptional" in how it relates to politics, with profound implications for how we understand the future of the Middle East. Divides among citizens aren't just about power but are products of fundamental disagreements over the very nature and purpose of the modern nation state—and the vexing problem of religion's role in public life. Hamid argues for a new understanding of how Islam and Islamism shape politics by examining different models of reckoning with the problem of religion and state, including the terrifying—and alarmingly successful—example of ISIS. With unprecedented access to Islamist activists and leaders across the region, Hamid offers a panoramic and ambitious interpretation of the region's descent into violence. *Islamic Exceptionalism* is a vital contribution to our understanding of Islam's past and present, and its outsized role in modern politics. We don't have to like it, but we have to understand it—because Islam, as a religion and as an idea, will continue to be a force that shapes not just the region, but the West as well in the decades to come.

Islam and Democracy in Indonesia

Human Rights Culture in Indonesia Maksimus Regus 2021-06-08 Drawing on human rights discourse and a study of the difficulties faced by religious minority groups (using the Ahmadiyya minority group as a case study), this book presents three interconnected challenges to human rights culture in Indonesia. First, it presents a normative challenge, describing the gap between philosophical and normative principles of human rights on one side and the overall problems and critical issues of human rights at national and local levels on the other. Second, it considers the political problems in developing and strengthening human rights culture. The political challenge addresses the ability (or inability) of the state to guarantee the rights of certain individuals and minority groups. Third, it examines the sociological challenge of majority-minority group relationships in human rights discourse and practices. This book describes the background of human rights in Indonesia and reviews the previous literature on the issue. It also presents a comprehensive review of the discourses about human rights and political changes in contemporary Indonesia. The analysis focuses on how human rights challenges affect the situation of religious minorities, looking in particular at the Ahmadiyya as a minority group that experiences human rights violations such as discrimination, persecution, and violence. The study fills out its treatment of these issues by examining the involvement of actors both from the state and society, addressing also the politics of human rights protection.

Civil Democratic Islam Cheryl Benard 2004-03-25 In the face of Islam's own internal struggles, it is not easy to see who we should support and how. This report provides detailed descriptions of subgroups, their stands on various issues, and what those stands may mean for the West. Since the outcomes can matter greatly to international community, that community might wish to influence them by providing support to appropriate actors. The author recommends a mixed approach of providing specific types of support to those who can influence the outcomes in desirable ways.

Constitutionalism in Islamic Countries: Between Upheaval and Continuity Tilmann Röder (J.) 2012-02-16 *Constitutionalism in Islamic Countries: Between Upheaval and Continuity* examines the question of whether something similar to an "Islamic constitutionalism" has emerged out of the political and constitutional upheaval witnessed in many parts of North Africa, the Middle East, and Central and Southern Asia. In order to identify its defining features and to assess the challenges that Islamic constitutionalism poses to established concepts of constitutionalism, this book offers an integrated analysis of the complex frameworks in Islamic countries, drawing on the methods and insights of comparative constitutional law, Islamic law, international law and legal history. European and North American experiences are used as points of reference against which the peculiar challenges, and the specific answers given to those challenges in the countries surveyed, can be assessed. The book also examines ways in which the key concepts of constitutionalism, including fundamental rights, separation of powers, democracy and rule of law, may be adapted to an Islamic context, thus providing valuable new insights on the prospects for a genuine renaissance of constitutionalism in the Islamic world in the wake of the "Arab spring."
