**An Idea Whose Time Has Come** Todd S. Purdum 2014-04-01 A top Washington journalist recounts the dramatic political battle to pass the Civil Rights Act of 1964, the law that created modern America, on the fiftieth anniversary of its passage It was a turbulent time in America—a time of sit-ins, freedom rides, a March on Washington and a governor standing in the schoolhouse door—when John F. Kennedy sent Congress a bill to bar racial discrimination in employment, education, and public accommodations. Countless civil rights measures had died on Capitol Hill in the past. But this one was different because, as one influential senator put it, it was "an idea whose time has come." In a powerful narrative layered with revealing detail, Todd S. Purdum tells the story of the Civil Rights Act of 1964, recreating the legislative maneuvering and the larger-than-life characters who made its passage possible. From the Kennedy brothers to Lyndon Johnson, from Martin Luther King Jr. to Hubert Humphrey and Everett Dirksen, Purdum shows how these all-too-human figures managed, in just over a year, to create a bill that prompted the longest filibuster in the history of the U.S. Senate yet was ultimately adopted with overwhelming bipartisan support. He evokes the high purpose and low dealings that marked the creation of this monumental law, drawing on extensive archival research and dozens of new interviews that bring to life this signal achievement in American history. Often hailed as the most important law of the past century, the Civil Rights Act stands as a lesson for our own troubled times about what is possible when patience, bipartisanship, and decency rule the day.

*Southern Edwardseans* Obbie Tyler Todd 2022-01-17 The founders and forerunners of the Southern Baptist Convention were fundamentally shaped by the thought of Puritan theologian Jonathan Edwards and his

theological successors. While Baptists in the antebellum South boasted a different theological pedigree than Presbyterians or Congregationalists, and while they inhabited a Southern landscape unfamiliar to the bustling cities and tall forests of New England, they believed their similarities with Edwards far outweighed their differences. Like Edwards, these Baptists were revivalistic, Calvinistic, loosely confessional, and committed to practical divinity. In these four things, Southern Edwardseanism lived, moved, and had its being. In the nineteenth-century, when so many Presbyterians scoffed at Edwards's "innovation" and Methodists scorned his Calvinism, Baptists found in Edwards a man after their own heart. By 1845, at the first Southern Baptist Convention, Southern Edwardseans had laid the groundwork for a convention marked by the theology of Jonathan Edwards.

[Violence in Health Care](#) Jonathan Shepherd 1994 All health care workers are vulnerable to assault as they fulfil their responsibilities day to day. They need to understand why violence occurs, who is most at risk, how to prevent it and what it feels like to be a victim. Managers need to initiate and implement prevention policy and to be able to arrange appropriate counselling and support for victims. Jonathon Shepherd has had experience of working with abused health care workers, and with his leading panel of contributors, he advises on how to reduce the risks of violence and what measures to take to prevent it. This book serves as a key source of information for all those who wish to try to better understand the causes and effects of violence and includes chapters on domestic violence, the role of alcohol and drugs, delinquency and non accidental injuries of children. With details of over 40 victim support agencies, this will be an invaluable handbook for all health care workers and their managers.

*Source Separation and Recycling* Roman Maletz 2018-03-07 Source separation of waste and subsequent recycling processes are promising solutions on the road to a circular economy. They reduce waste disposal and the need for resource deployment, while also producing secondary raw materials; as such, they have a significant effect on climate protection. This book presents source separation technologies and related aspects that form the basis for efficient recycling and a modern approach to waste management. It examines legislative drivers and policy aspects of adequate waste collection schemes, as well as segregation technologies and the success factors for their implementation. Summarizing the outcomes of a Sino-German workshop, the focus of this volume is mainly on the current situation in China and Germany. However, the findings are applicable to a broad range of situations and regions around the world. In addition, the book demonstrates the relevance of source separation for climate protection and describes alternative separation technologies. Given the breadth and depth of its coverage, the volume will appeal to environmental scientists, engineers, economists, waste managers and policymakers alike.

*The Antique Story Book* Arthur Schwerdt 2007-05 The most fun you'll ever have learning about antiques, from the man the Philadelphia Daily News has called "the godfather of Cape May County antiques," can be found in The Antique Story Book: Finding the Real Value of Old Things. From his columns, lectures, and classes on antiques, author Arthur Schwerdt, a certified appraiser and dealer for nearly a quarter of a century, shares some of his favorite stories—the ones that make antiques so fascinating to so many people. In "Love and Sex-Victorian Style," Schwerdt tells how he learns about intimacy in that era and wonders what future antique hunters will learn about our sexuality. "The Mysterious Creator(s) of Nancy Drew" discusses the identity of the man who conceptualized Nancy Drew and her character's influence on future literature. Most importantly, Schwerdt divulges the most enjoyable, valuable, and meaningful aspect of antiquing—the stories behind each treasure. Long ago, every item in today's antique shops existed as a product of its time. The Antique Story Book makes these items come alive again, making astute antique-lovers of us all. *What Is Islamophobia?* Narzanin Massoumi 2017 As racist undercurrents in many western societies become manifestly entrenched, the prevalence of Islamophobia - and the need to understand what perpetuates it - has never been greater. Critiquing the arguments found in notionally left accounts and addressing the limitations of existing responses, What is Islamophobia? demonstrates that Islamophobia is not simply a product of abstract, or discursive, ideological processes, but of concrete social, political and cultural actions undertaken in the pursuit of certain interests. The book centres on what the editors refer to as the 'five pillars of Islamophobia': the institutions and machinery of the state; the far right, incorporating the counterjihad movement; the neoconservative movement; the transnational Zionist movement; and assorted liberal groupings including the pro-war left, and the new atheist movement. The book concludes with reflections on existing strategies for tackling Islamophobia, considering what their distinctive approaches mean for fighting back.

**The Fama Portfolio** Eugene F. Fama 2017-09-07 Few scholars have been as influential in finance, both as an academic field and an industry, as Eugene Fama. Since writing his groundbreaking 1970 essay on efficient capital markets, Fama has written over 100 papers and books that have been cited hundreds of thousands of times. Yet there is no one collection where one can easily find his best work in all fields. "The Fama Portfolio" will be an outstanding and unprecedented resource in a field that still concentrates mainly on questions stemming from Fama's work: Is the finance industry too large or too small? Why do people continue to pay active managers so much? What accounts for the monstrous amount of trading? Do high-speed traders help or hurt? The ideas, facts, and empirical methods in Fama's work continue to guide these investigations. "The Fama Portfolio" will be a historic and long-lasting collection of some of the finest work ever produced in finance."
